

INNOVATING AEROSOL PROTECTION

Airguard CH is designed to be used in all kinds of clinical environments and spaces. This unit gives you freedom of mounting to any furniture and the aerosol shield gives you the protection you need.

FEATURES

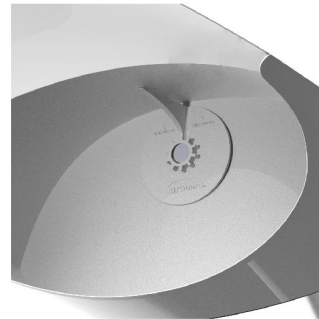

Mount anywhere

The product can mount on any surface like a chair neck as shown in image.

Flexible neck

The long flexible neck gives freedom to position anyway needed.

Inner support

The inner part provides rigidity and structure and keep it stable in use.

Adjustable clamp

The clamp can adjust to various different objects with different thicknesses.

BREATHE EASY

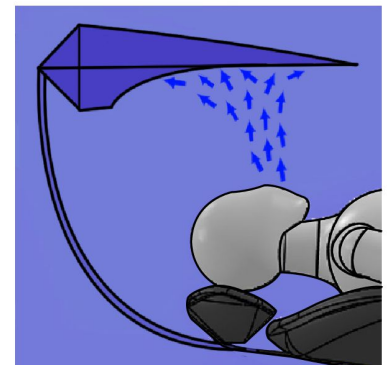

The AirGuard™ CH is a scratch resistant high impact plastic shield designed to easily attach to dental chairs. The universal clamp allows you to attach to a surface of thicknesses varying from 1/4 in to 1 1/4 in.

The shield provides a barrier protection from aerosol, backsplash and saliva between doctor and the patient. Airguard CH is a low maintenance and portable product. It is easy to install, clean and is reusable.

Airflow and protection without the AirGuard™ CH

Airflow and protection with the AirGuard™ CH

Product Dimensions

*The flexible arm is 36"

Included with Product

One AirGuard™ shield, one flexible arm clamp & 2 fixtures (inner and outer).

AIRGUARD™ PRODUCT LINE

An option for every office, from the simple but effective LT, to the technologically advanced MP, and the ultimate XP model. The AirGuard™ LT offers a competitive price for a reusable and disposable guard that, when attached to an extra-oral suction unit, will protect against aerosol and splatter. The AirGuard™ MP provides the same level of protection and also includes multi-use lighting that can change between warm white, cool white, amber and blue colors. The AirGuard™ XP is an all-in-one solution that includes extra-oral suction, an aerosol barrier, intra- and extra-oral lighting, magnification, and a high-def camera. All AirGuard™ models deliver enhanced protection for the dentist and their patients from the spread of infectious disease through aerosols.

Breathe Easy.
